**Departmental
Findings of Fact and Order
Part 70 Air Emission License
Amendment #1**

After review of the Part 70 Administrative Revision License application, staff investigation reports and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 M.R.S.A, Section 344 and Section 590, the Department finds the following facts:

I. Registration

A. Introduction

FACILITY	University of Maine
LICENSE NUMBER	A-204-70-B-M
LICENSE TYPE	Part 70 Administrative Revision License
SIC CODES	8221
NATURE OF BUSINESS	Educational Facility
FACILITY LOCATION	Orono, Maine
DATE OF LICENSE ISSUANCE	November 6, 2000
LICENSE EXPIRATION DATE	November 6, 2005
DATE OF ADMINISTRATIVE REVISION ISSUANCE	May 3, 2001

B. Nature and Justification for Revision Request

The University of Maine has requested an administrative revision to address a typographical error in the initial Part 70 license. Conditions 37 and 38 state in part:

“The licensee shall submit semiannual reports every six months to the Bureau of Air Quality. The semiannual reports are due (insert date), 30 days from the end of the second calendar quarter following the date of signature of this license.”

and

“The licensee shall submit an annual compliance certification to the Department in accordance with Condition (20) of this license. The initial annual compliance certification is due (insert date) with the submittal of the second semi-annual report after the signature date of this license.”

These conditions should state dates by which the semiannual report and annual compliance certifications are due to be submitted to the Department. Therefore, each should read as follows:

“The licensee shall submit semiannual reports every six months to the Bureau of Air Quality. The initial semiannual report is due July 30, 2001, 30 days from the end of the six month period of January 1 – June 30 following the date of signature of this license.”

and

“The licensee shall submit an annual compliance certification to the Department in accordance with Condition (20) of this license. The initial annual compliance certification is due January 30, 2002 with the submittal of the second semiannual report after the signature date of this license.”

Therefore, since this is a correction to a typographical error, this request has been processed as a part 70 administrative revision and meets the requirements of such.

ORDER

The Department hereby grants Part 70 Administrative Revision A-204-70-B-M, subject to the conditions found in the initial Part 70 Air Emission License A-204-70-A-I, and in addition to the following conditions:
